## Project Title: Lucien Lévy-Dhurmer Website

I would like to make the site a single page with a continuous scroll, with expandable sections dividing Dhurmer's most iconic paintings by subject categories. The collapsed section titles would serve as the navigation for users to select a section to examine in detail. The sections will each feature a carousel that displays the artwork in the form of postcards, where the viewer can flip for more information about the piece. The website will emphasize presenting the artwork given the limited textual information available on Dhurmer's life while there is an abundant collection of his art.

### Sections:

- **Artist Bio:** Introduction of Dhurmer, including his early life, career, and personal life.
- **Creative Portraiture**
- **Figurative Landscape**
- **Landscapes and Cityscapes**
- **Interior scenes**
- **Analysis of styles**
- **Sources:** Accounts for the Wikipedia page on his bio as well as the collection of artwork found in [www.mutualart.com](http://www.mutualart.com)
